## LIQUID SUGAR

Our Baristas Liquid Sugar is made from 100% Australian Raw sugar. Developed to dramatically simplify the whole process whether you're running a busy Cafe or in a catering environment where speed and efficiency is paramount. Because it's sugar you don't need to stir you can now consistently achieve higher levels of customer satisfaction with evenly sweetened hot drinks coupled with the deep natural flavour of raw sugar - all done in a fraction of the time normally taken with regular sugar.

Application is easy with our custom designed pump- 1 pump is equal to 1 teaspoon sugar. Replaces the open sugar bowl and sticks at the counter so reduces mess and wastage. Available in handy 2L bottles.

## NATURAL RAW COFFEE SHOTS

The Natural Raw Coffee Shots range allows you to make authentic iced coffee beverages without the need for extracting the shot from the time consuming espresso machine. These products enables staff to make quality flavoured blended drinks and iced coffee with minimal fuss and virtually no preparation. Made from 100% Arabica coffee beans and of course Australian raw sugar they come in three popular flavours to choose from together with a plain Espresso version. Application is easy with our custom made pump and they all come in our great value 1L bottle.

## NATURAL RAW INFUSIONS

The Natural Raw Infusion selection brings you and your customers a new standard in Cafe Syrups. Made locally using Australian Raw Sugar and infused with all natural flavour. Whether it's the rich buttery Caramel or the truly authentic Chai Spice these premium syrups will enhance your hot beverages with intense long lasting flavours that will keep your customers coming back for more. All available in 1L bottles with our handy rustic wood bottle stand.
